

PRENTON HIGH SCHOOL FOR GIRLS

CAREERS POLICY

The Careers Strategy and Careers Information, Advice and Guidance (CEIAG) programme at Prenton High School connects learning to the future. It motivates young people by giving them a clearer idea of the routes to jobs and careers that they will find engaging and rewarding. A high quality CEIAG programme widens students' horizons, challenges stereotypes and raises aspirations. It provides students with the knowledge and skills necessary to make successful transitions to the next stage of their life. This supports social mobility by improving opportunities for all young people, especially those from disadvantaged backgrounds and those with special educational needs and disabilities.

1 STATUTORY DUTIES

Section 42A of the Education Act 1997 requires governing bodies to ensure that all registered pupils at the school are provided with independent careers guidance from year 8 (12-13 year olds) to year 13 (17-18 year olds).

The governing body must ensure that the independent careers guidance provided:

- is presented in an impartial manner, showing no bias or favouritism towards a particular institution, education or work option;
- includes information on the range of education or training options, including apprenticeships and technical education routes;
- is guidance that the person giving it considers will promote the best interests of the pupils to whom it is given.

The Technical and Further Education Act 2017 inserts section 42B into the Education Act 1997 and came into force on 2 January 2018. This new law requires the proprietor of all schools and academies to ensure that there is an opportunity for a range of education and training providers to access all pupils in year 8 to year 13 for the purpose of informing them about approved technical education qualifications or apprenticeships.

This may include helping students with SEND to understand different career pathways, and enabling them to gain the skills, knowledge and experience they require to achieve their career goals. This may include working with families of students with SEND to help them understand what career options are possible, with the right support, for their child.

Careers Information, Advice and Guidance for students with SEND should be based on the students' own aspirations, abilities and needs.

Careers guidance for students with SEND should take account of the full range of relevant education, training and employment opportunities, such as traineeships and apprenticeships, supported internships (for young people with Education, Health and Care plans) or routes into higher education. It should be well informed about ways in which adults with SEN or disabilities can be supported in the workplace (e.g. disability rights, supported employment, ways in which jobs can be "carved" to fit a person's abilities, job coaching, reasonable adjustments for disabled people in the workplace and Access to Work (DWP support)).
